The best little hotels in the world

They have echoes of a bygone age, with good, old-fashioned service and style, exotic settings and unspoiled pleasures. By Fiona Dunstan

In an era of hotel chains and international brands, it's easy to forget that there still are hotels that are truly special. These are the places that have stood the test of time, and are still going strong. They are the places that have a history, a story, and a character that is unique to each one.

These hotels are not just places to stay, they are destinations in themselves. They offer a glimpse into the past, and a chance to experience the best of what a hotel can be. They are the places that you want to go to, and that you want to stay in.

These hotels are the ones that you want to go to, and that you want to stay in.

These hotels are the ones that you want to go to, and that you want to stay in.

These hotels are the ones that you want to go to, and that you want to stay in.

These hotels are the ones that you want to go to, and that you want to stay in.
